• With the method of payment "Credit card (guarantee)" you enter the information on your credit card into the appropriate fields on the TravelLine: Booking Engine. That information is transferred to the chosen accommodation facility through secure communications on a secure server to guarantee your reservation. Accommodation facility itself makes the decision to charge or lock the amount of money on your credit card that is equivalent to the amount of the order. If the accommodation facility will not be able to make the necessary transactions on your card required to guarantee your reservation, your reservation may be canceled by accommodation facility. Please make sure that the expiration date of your credit card has not expired, and your account has sufficient funds to pay for the order.

• With the help of noncash transactions the 100% of the booked services should be paid beforehand. Some accommodation facilities may set different sizes of the pre-payment.
